**UMD Position AFSC: 1D771**

**Security Clearance: TOP SECRET**

**PULHES: 3,3,3,2,3,2**

**ASVAB Requirements: M:45 and E:60**

**Area(s) of Consideration:** (1) Members of the MS National Guard (Statewide) and (2) any applicant that can become a member of the MS Air National Guard (Nationwide)

**Special Note:** This FULL TIME MILITARY duty position vacancy in the Air National Guard is announced and will be filled under the provisions of Section 502(f), Title 32 and United States Code.

**Specialty Summary:** Manages and performs Defensive Cyber Operations (DCO) and cyber functions (DoDIN operations) in garrison and in deployed environments. Surveys, secures, protects, defends, preserves, designs, builds, operates, and extends data, networks, net-centric capabilities, and other designated systems. This Air Force Specialty Code incorporates the use of DoD Cyber Workforce Framework (DCWF) Codes to tie this specialty to the framework. The DCWF was developed by the National Institute of Standards and Technology (NIST) and the DoD to establish a common lexicon and model for all cyber work. The DCWF will universalize training and education between academia, industry, and military. It will also enable talent management by ensuring the right Airmen, for the right assignment, at the right time. Cyber, communications and Information Technology capabilities critically underpin all Air and Space Force core missions. The delivery of operationally focused governance and investment to drive sustainability and reliability for this domain is a warfighting necessity. This drives the Department of the Air Force (DAF) forward with real actions which enables modernizing and achieving the cyber posture required to meet pacing challenges. This fully mission capable model develops Airmen that can complement multiple work roles and build technical experts by using the advanced competency levels through the Occupational Competency Model referenced in the Career Field Educations Training Plan (CFETP) available on e-pubs.

**Duties and Responsibilities:** The available duties and responsibilities can encompass: Enterprise Operations delivers enduring cyber mission capabilities. Enterprise Operations includes all applicable statutes, but specifically the designing, building, provisioning, maintaining, and sustaining information systems, including warfighter communications, within the Department of the Air Force (DAF). The Department of Defense Information Network (DoDIN) operations mission includes operational actions taken to secure, configure, operate, extend, maintain, and sustain DoD cyberspace and to create and preserve the confidentiality, availability, and integrity of the DoDIN's digital terrain and physical infrastructure. Mission Defense Activities conducts targeted defense of the DoDIN and other DoD systems to execute DAF operations. Operations focus on identifying, locating, and defeating specific threats that compromise the security of the communications, information, electromagnetic environment, or industrial systems through defensive and protective measures within a specified operational area. Operations in contested, degraded, and denied environments to include but not limited to DoD networks, airborne platforms,

austere environments, AOC/JOCs (Air & Space Operations Center/Joint Operations Center), Weapons Systems, ICS (Industrial Control Systems) & SCADA (Supervisory Control and Data Acquisition) systems, and other interconnected devices that play a role in mission effectiveness. Data Operations enables data driven decisions through delivering the employment of information operations and software development methodologies. Operations modernizes and enhances warfighter and weapon system/platform capabilities through the rapid design, development, testing, delivery, and integration of reliable, secure mission-enabling systems. Operates and maintains automated data solutions designed to aggregate, secure and display mission relevant data to facilitate rapid data driven decisions. Expeditionary Communications delivers cyber capabilities in austere and mobile environments. Expeditionary Communications includes all applicable statutes, but specifically datalinks, the building, operating, maintaining, securing, and sustaining of tactical and communications networks when needed to support warfighter requirements, systems employed in austere, mobile, and/or expeditionary environments, to provide command and control in support of Air and Space Force missions.

Performs other duties as assigned.
